

St Ives Infant School

Curriculum Information

Reading

Individual reading: We use Rigby Rockets as the school's core reading scheme, supplemented by books from Story Worlds and Oxford Reading Tree's Glow-worms series.

Guided reading: We use Rigby Star book sets for guided reading, supplemented by books from other schemes including Collins Big Cat.

Phonics

Our phonics teaching is based on a progression through the phases of Letters and Sounds. We use the actions from Jolly Phonics to support this.

Maths

We do not use a published maths scheme, but use materials from the NCETM (National Centre for Excellence in the Teaching of Mathematics).

Each child in Year 1 and Year 2 has a Maths Passport which sets out the key number facts which the children need to know by the end of Year 2.

More information about the curriculum is available from the headteacher, Joanne Dean, including policies for each subject.

Each half term each year group produces a topic leaflet, providing information about the topic which will be studied over the half term and how parents can support their children's learning at home. Topic leaflets can be found on the webpage for each class.
