

# Pipits Weekly Update!

8.10.2018

- The children have been practising sitting down together and listening to each other during group time.  
We are trying very hard to have a go at this.
- We have been talking a lot about Space and going to the moon. With the help of the children and their junk modelling the conservatory has been transformed into a space area. Lots of us have had a go at building rockets and we have been role playing space adventures!
- In group time we have spent time looking at our names. We have been looking closely at the first letter of our name and what it looks like and the sound it makes. We will keep going with this!

## Home

Please remember to bring your book bag to nursery everyday so you can choose a new book and we can put important letters and art work in it. Now the drizzle is settling in please remember a waterproof coat (it doesn't put us off going outside!)

## Have a lovely week!
