

## SPECIAL EVENTS

This term we have been invited to the Harbour Hotel to help build a bug hotel with the support of their gardener. The gardener will then visit our school to help build a bug hotel within our grounds.

We have also been invited back to go to St Ives library this term.

## Maths Passport

All children have now got a maths passport to support them to practise maths skills at home. Please spend five minutes a few times a week to help your child consolidate these concepts. In class we will assess and give them the gold stars. Once a week we will send home number homework for your child to complete at home.

## Endangered Animals

Our endangered animals unit will teach the children about animals that are becoming endangered or extinct due to a variety of reasons. They will learn about why animals are becoming endangered due to things such as climate change, deforestation and hunting.

The children will learn about what they can do to help protect and save wildlife from things like recycling and walking more and using the car less. They will

## Homework Project

If you would like to find out more about endangered animals you could create a model of an animal, a poster, a fact file or leaflet. This can then be used as part of show and tell during topic time.

## Other Activities to do at Home

- Read widely and ask lots of questions about the text.
- Practise spellings every day if you can. Try and put them into sentences. Can you make different types of sentences?
- Remember that every sentence starts with a capital letter and ends with a full stop, question mark or exclamation mark.
- Read topic books to find out more information about animals.
- Read scales—look at the different scales that are used at home.

## Mathematics

**In maths we will be consolidating:**

- Develop rapid recall of X2 x5,x10 and 3x tables.
- Use these to solve one step multiplication and division problems.
- Consolidate, and extend, adding two 2-digit numbers using partitioning and counting on using number lines.
- Consolidate and extend subtracting two 2-digit numbers using partitioning and jumping back on a number line.
- Solve one-step and two-step money problems.
- Consolidate to read simple scales.

## RE

In RE the children will be learning about special places including special places to us

## PE

We will be learning how to play tennis and what skills are needed. Children will need t-shirts, shorts and trainers as

## Literacy

**In Literacy we will be:**

- Learning the fact files about The Storm Unicorn and The Honey Bee.
- Writing our own fact file about endangered animals.
- Focusing on using correct punctuation.
- Trying to use conjunctions such as and, but, so, when, because, in sentences.
- Working on phonics and spellings on an ongoing weekly basis.
- Learning grammar—adjectives, past and present tenses, nouns, verbs, adverbs and recognising and using different types of sentence.
- Developing comprehension skills in reading.

PSHE - Personal, Social & Health Education

### Managing Feelings

We will be focusing on how we are able to express and understanding our feelings. It will include some of the following objectives:

- Think about ourselves and recognise what we like and dislike.
- Develop vocabulary to describe feelings.
- Celebrate our strengths.
- Identify comfortable/uncomfortable feelings.
- Describe feelings to others.
- Understand change and loss and associated

## **Setting Sails Curriculum**

### ***Endangered Animals***

**Sandpipers and Cormorants  
Summer Term 2019  
First half term**

### ***Big Ideas:***

**I can ask questions about endangered animals.**

**I can answer a question about an animal I have researched.**

**I can draw a mind map to show what animals need to survive.**
